TO AGETTE

Settlements of accounts will be required monthly, of hesupply or papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule.

In discussing the terms of the proposed lease of the Meadows to a company, the Cariboo miners appear to have based their opinion entirely upon false premises. They seem to think that the company propose to hold and work the ground for their own benefit to the exclusion of the general mining community from any participation in the profits acc uing therefrom. They labor under a serious error. The parties making the application have the welfare of the Colony at heart as well as the advancement of their own private interests. All efforts made to work this section have failed for want of a sufficiently powerful pumping apparatus to overcome and expel the water that invaded the shafts sunk. To overcome this serious obstacle so as to admit of the successful working of the flats or meadows, the company propose to invest their means in steam engines and other apparatus which can only be procured at a heavy outlay of ready money. To procure the necessary capital it is required that more than ordinary inducements should be held out, and something like a certainty of profit guaranteed, for what capitalist would be found willing to invest his means in any undertaking except a reasonable prospect of success was assured? Again, there has not been nor will there be, any attempt made to aggregate the shares in a few hands to the exclusion of the many. The idea is absurd and preposterous. The immense outlay of capital required to open out the mine, or even to prospect it, furnishes the best guarantee that the shares will be thrown on the market, and that all who wish may enjoy an opportunity of investing either las bor or money in the enterprise, for let it be ever borne in mind that the projectors of this scheme are already deeply interested in the prosperity of the Colony - that apart from the furtherance of their individual interests they have cogent reason to urge them to seek the general prosperity of every man or set of men in the country; and that it will be both their aim and interest to include among the shareholders every class comprised therein. The arguments advanced in the report of the Committee appointed at the meeting are quite as absurd as those contained in the speeches. They belong to an age that has happily pass. ed away. They are akin to the spirit that actuated the silly people who mobbed and drove the inventor of the spinning-jenny out of England, that sneered at Watt's efforts to perfect the steam-engine; that threw obstacles in the way of steam-navigation; and that has opposed the consummation of nearly every great and beneficial scheme yet mooted in this Colony. The line of argument is as unworthy the men who have adopted it as it is unworthy the age in which they move. The object of the company is a catholic one. It is intended that all shall share in the advantages and good fortune that may attend the working of the scheme; and the application should not be refused by the Government until it shall have been satisfactorily shown that a majority of the Cariboo miners understand the question thoroughly, and that their disapprobation is based upon something more wort. y than an illdefined prejudice arising from a want of knowledge of the true facts of

THE vigorous protest of the public on Monday night against the alienation of Beacon Hill Park, cannot fail to exert a salutary effect upon the Government majority in the Legislative Council. That the park is the property of the public is not denied; and that the public are competent to take good care of their own property has been established by the excellent care they are taking of the streets and the admirable uses to which they are putting the unsightly masses of rock that disfigure the northwest corner of the Park. Under all the circum. stances, as explained by the Mayor and other speakers at the meeting, we entertain not the slightest doubt that a satisfactory understanding will be arrived at, and that the obnoxious clause which has drawn forth so energetic an expression of public opinion will be stricken from the Municipal Bill.

GLADSTONE says he intends to make a considerable reduction in the public expenditures of Great Butain.

DELAYED DISPATCHES.

SAN FRANCISCO, Feb. 25.—The war between the Chinese for possession of women which arrived by the steamer from Hong Kong yesterday morning grows more serious. A man named Ah Fook seems to have been more successful than his rival, and obtained possession of 300 women who arrived the possession of 300 women who arrived the day before yesterday. His enemies threater-ed assistination, and offered a reward of \$1000 for his death. He has been surround-ed by a guard day and night ever since. ed by a guard day and night ever since. Last night a man went to his room, called him out and shot him in the back, producing a severe but not necessarily fatal wound. Ah Mow, the assassin, escaped. It now is apparent that the attempt recently mede by the Chinese company to break up the traffic in women was only a blind which enabled them to do the business with greater facility and less expense than before.

PERRIE CREEK, Jan. 7th, 1869. DEAR —: I take the opportunity of going down to Walla Walla to let you know I am here, where I have been since last September. I have got a claim here along with three boys from Walla Walla, and it prospicts well since we got through the blue clay, and it will pay splendidly. — and the boys in the "Jewellers' Shop" have got a big thing. So has — and —, and most of the boys from the old creek. If you istend to come, come at once, as we expect a big rush from Blackfoot, J. G. — has started a ferry on Flathe d Lake in preparation for the Blackfoot rush. Most of the Walla Wulla men are coming this way. I have taken up ground for you, so lose no time and bring some grob with you as everytiting and oring some gran with you as every searce. Flour is selling at 45 cents. A NEGRO CLAIMS 800 ACRES OF SAN FRANcisco.—A negro man, aged about eighty years, recently arrived in San Francisco from New York, visiting the former city for the purpose of reclaiming and taking possession of some eight hundred acres thereof which he claims to own. He says that he lived where San Francisco now stands some thirty-five years ago, at which time he re-ceived a grant from the Mexican Government for eight hundred acres of the peninsula, but the sandy and barren character of the soil was such that he did not value it very highly. Then after several years residence he went into Southern Mexico and thence to the Atlantic States, where he joined Fremont's exploring expedition and returned to California. After the cession of this State to our Government he claims to have located a land warrant on the present site of San Francisco. It is understood that he is well pleased with the improvement, that have been put upon his land during his absence, and that he is disposed to be liberal with his tenants. A swarm of roal estate 'sharps' are on his trail disposed to cultivate him It this sable shadow is as dark as represented, it will considerably cloud San the sandy and barren character of the soil

presented, it will considerably cloud San

Francisco real estate.

A MOST unpleasant man to meet must have been the executioner of Thomas Jones, who was hanged in London, On-tario, a few weeks ago. The picture of him is as word as that of the headsman in Cooper's novel. A description of the procession to the gallows contains the following: The melancholy procession moved slowly and in silence, Jones being pale, and speaking only a word in a low tone now and then to some of those near him. On reaching the room in the southern wing another delay took place, when the hangman, for the first time, appeared on the scene. He was a dreadful looking character, his features being masked and further disguised with a large, flowing white beard falling down on his breast. His form was enveloped in a huge black cloak. The disguise was most complete, and was weird and terrible. In fact, the aspect of this dread official was simply horrible, and never was a headsman more fearfully dressed. He appeared suddenly on the scene, and a shudder ran through the culprit's frame as his eyes fell on the fearful apparition. He at once con-fronted Jones, and proceeded with the first part of his horrible duty by placing the rope around his neck.

A REMARKABLE CASE of considerable a terest to commercial men recently transfired at Cape Town, South Africa, which sthus leaves by the Advertiser and Mail: "Messis. Pocock & Co., or rener their managing partner, in the atsenc of the senior partner in England, made a stupid blunder in the entering of certain goods at the Customs, by which a certain quantity of corks dutinhis for about \$10 was omitted. The thing was so percently stufil that no man in Cape Tear, save the Governor and the Attentory General, could come to the onclusion that it was anything more than a preposterous blunder. For that blunder, however, the firm admitted that they were liable; and the Supreme Court gave judgment to that effect for confiscation of all the ment; that effection confiscation of all the goods in the same parcel with the corks; but refused the further prayer of the Government for the confiscation of all the goods in the shipment, with troble penalties and accumulated costs. The firm shop afterwards cumulated costs. The firm shon atterwards became insolvent and assigned their estate. The Governor and the Attorney General, however, notwiths anding the insulvency, determined, in the face of the strongest remonstration. Brances from the Chamber of Commerce and the public generally, to appeal to the Privy Council in England; and, accordingly, the Attorney General moved the Supreme Court for leave. We have an Ac ing Chief Justice, Mr. Bell—whr, like the Governor and the Attorney General—is a gentleman of marked ability and unimpeachable integrity, but who is equal it not superior to both of them in erratic perverseness of action. We are not going to rake up any previous instances in infrom the Chamber of Commerce and who is equal it not superior to both of them in erratic perverseness of action. We are not going to rate up any previous instances in illustration of this. But his conduct on Monday was such as has asticanded the whole community. While this application of the Attorney General for leave to appeal was under consideration, his Lordship volunteered the extraordinary statement that he did not feel himself bound by the decision he had previously given against the Government as a precedent, because on the day when he heard the case he suffered so much from the ear-ache, and was so unusually deaf, and in such pain, that he could sometimes hardly hear what was said. Under these circumstances, he did not held himself bound by his previous decision, but wished to hold himself as a clean sheet of paper it such a case came before him again! ** ** ** ** Things have come to a strang, pass indeed, when our Chief Judge coolly assures us that the judgments he gives or the principles he lays down on one day may be reversed on the uext, and that the admin station of justice is to be contingent on the conduit on of the judge bodily health! It was an ear-ache jud the Pocock-C toms case; in the fortherming great trial, in which the Studard coming great trial, in which the Studard shark is obtain a preliminary medical certificate, less, a noth-ache, or a funch of liver, or a fit of in. Mr Holladay, the owner of the steamship line, will convey the Victoria Eleven to San Francisco and home again free of charge, and the Cosmopolitan Hotel at San Francisco offers most I beral terms during their stay there. The match, if decided upon, will attract much attention and interest. A meeting of our Cricketers will be held at the Garrick's Head, to-morrow evening at 8 o'clock, to consider the proposition.

LEGISLATIVE COUNCIL YESTERDAY .- The Governor's Mesage, No. 18, laid before the Council the returns of revenue derived from Kootenay; No. 19, the assent to the Harewood Corpany's Exten ion Bill; No. 20, the asser to the Supreme Courts Bill; No. 21, the assent to the Fence Bill; No. 22, compeative returns of revenue and expenditure on the Sir James Douglas and on the Asay Office, with the comparative cost of diting the prisoners, &c. The Attorney teneral gave notice of his intention to bring in a Bill to amend the County Court Ordi-

nance. Dr. Helmeken gave notice that he would move for the transter of Beacon Hill Park to the Corporation, for the use of the public. Dr. Helmcken gave notice that he would bring in an Ordinance in relation to the custody and fees paid into the Courts of the Colony. The Road Bill and Fire Companies Aid Ordinance were read a third time and passed. The Religious Institutions Bill was read a second time; committal ordered for to-morrow. The Supplementary Supply Bill, 1866-7, passed through Committee and was reported complete; third reading for tomorrow. The Volunteer Bill was brought up for third reading, when Dr. Helmeken objected that there was a great omission in the Bill, inasmuch as it did not provide for teaching the "soung idea how to shoot" at the various schools. He did not see why the boys as well as older people, should not play at soldiering. The Bill was read a third time and passed. The Loan Bill was then taken up in Committee of the Whole and after some few amendments, was reported complete. The House considered the memorial to the Queen on the state of the Supreme Cours, with closed doors. We publish the address below. When open session was resumed Dr. Helmcken moved, "That this Council thinks it advisable that iron pipes for the conveyance of gas or water, should be admitted free of Customs Duties. And, also, that Mosel Wine and Sauterne should be considered as being included in the term Claret." The latter portion of the resolution relating to wines was carried; the former portion was withdrawn; but it was suggested that in the case of water pipes a provision might be made in the Victoria Water Bill for their importation free of duty. The Council then adjourned till 1 p. m. tc-day.

MEMORIAL.

MAY IT PLEASE YOUR MAJESTY: We, Your Majesty's loyal and dutiful sub-fects, members of the Legislative Council of British Columbis, beg to refer to Your Ma-ty's gracious consideration the anomalous, mischievous and inconvenient condition of the Courts of Judicature in this Colony.

of the Courts of Judicature in this Colony.

The Colony now possesses two Supreme Courts of Civil Justice, one Court has Jurisdiction only on and over the Maioland of British Colombia and its Dependencies as it existed prior to the British Colombia Act of 1866; the other has Jurisdiction only over Vancouver Island and its Dependencies.

The result of the two Courts retaining their separate and limited Jurisdiction has acted most injuriously to the material in-

acted most injuriously to the material in-terests of the Colony, because, although be-ing now under the rule and subject to the General Laws of the Colony of British Columbia, the Courts have no concurrent and equal Judidiction. The Merchants and Traders are unable, without great loss of time and expense, to obtain at the hands of time and expense, to obtain at the hands of the Courts that speedy redress without which the Commercial Interests must suffer. If a Merchant residing in Victoria desires to enforce his rights against a person residing on the Maieland of Brit'sh Columbia, he is compelled to p occed to the Maieland for that purpose. He there sues his debtor in the Supreme Court of the Mainland, and if he obtains a Judgment, the debtor immediately removes his property to Vancouver diately removes his property to Vancouver Island, and by this means compels his cre-ditor-to see again in the Court of the Island, on the judgment so obtained on the Main-land, as the judgments of that Court do not extend beyond the limits of the original jurisdiction.

jurisdiction.

This practically gives the Debter the means of evading payment of his just debte.

The remedy desired is one which is simple The remedy desired is one which is simple in the extreme; it is only nece sary to give both the Courts a joint, equal and concurrent jurisdiction; without it, it is impossible in many instances to obtain justice.

There has all cady arisen in the Colony several cases in which the two Courts have been brought into conflict, and the conse-

suggest that a Court of Appeal for Civil and Criminal cases, with a third Judge of Appeal, should be established, in order that cases of comparatively minor importance might be decided in the Colony, without the might be desired in 12 decisions, who was necessity of referring the same to Your Majosty's Privy Council. Such a Court would be a great boon to the community, and we feel assured that the surject has only

THAT excellent society, the Good Templars, gave their entertainment last evening at the Alhambra Hall, which was tastefully decorated with fligs and banuers. The Tea was a great success, and seemed to be duly appreciated by the guests. The W. C. T. addressed the meeting in an excellent speech, and was followed in due course by the Rev. T. Somerville, who has a happy way of pleasing everybody, and while conveying instruction, keeps the audience in a good humor. The rest of the evening was pleasart!y filled with songs, recitations and dialogues by various members of the Society who acquitted themselves remarkably well. A large number of the fair sex graced the Hall with their presence and assisted materially in making the affair one of the most delightful of the season.

WE had the pleasure to "assist" at one of chanics' Literary Institute, last evening. The Oxyhydrogen lintern threw out a number of beautiful pictures with such distinctness of outline that one could plmo t imagine himself in the immediate vicinity of the place under description. C. Good, Esq., explained the various localities in a most eloquent manner, and drew forth the applause of a very repectable audience. The room was well filled, a most creditable fact for our city, as marking the increasing taste for such refined amusement. The band, duiing intervals, performed with great teste a number of popular airs.

THE SOUND STEAMERS .- The Eliza Anderson arrived at 10 o'clock vesterday morning from Paget Sound, bringing 40 passengers and a fine freight. The opposition bids fair to be energetic and determined on both sides. Rates of passage and charges for freight have been materially reduced. The pursers of both boats have placed us under obligations for files of latest papers. The Anderson sails at 12 to-day and the Wilson G. Hunt at 2 p. m.

Acrors Robbed .- The Portland Herald says that a mysterious robbery occurred on the Active on her last trip to this city, after she had passed the Custom House at Astoria. Pierpont Thayer lost all his stage wardrobe, and M ss M. Fields \$150 worth of jewelry. The thief broke into several baskets and trunks, taking out such things as the eye fancied, or thought suggested valuable.

THE Rev. J. C. Fletcher gave us last evening a brilliant lecture on the religion, customs and people of Brazil. Seldom have we relished anything more than the picture he laid before tropics laden with its strange variety of fruits and flowers, teeming with perpetual harvest for the band of man. Surely that country must be the garden of the world, and if its people had the enterprise which moves this Yankee nation, imagination could not set a bound to the results they would preduce there. bound to the results they would produce there. As relevant to this comparison the Revered gentleman stated that the best Remedies employed there for the diseases to which they are subject, are invented and supplied to them by our own wellknown countryman, Dr. J. A Bill Entitled an Ordinance to amend the Law of Partnership.

WHEREAS it is expedient to amend

WHEREAS it is expedient to amend the Law relating to Partnership; Be it enacted by the Governor of British Columbia, with the advice and consent of the Legislative Council

thereof, as follows: I. The "Partnership Act, 1865," is hereby repealed, provided, however, that such repeal shall not invalidate

any acts or things done, or effect any rights acquired therounder.

II. The advance of money by way of loan to a person engaged or about to engage in any trade or undertaking upon a contract in writing with such person that the lender shall receive a rate of interest varying with the pro-fits, or shall receive a share of the profits arising from carrying on such trade or undertaking, shall not of itself constitute the lender a Partner with the person or persons carrying on such trade or undertaking, or ronder him responsible as such.

III. No contract for the remuneration of a servant or agent of any per-son engaged in any trade or under-taking by a share of the profits of such trade or undertaking, shall of itself render such servant or agent responsible as a Partner therein, nor give him the rights of Partner.

IV. No person being widow or child of the deceased Partner of a trader, and receiving by way of annuity a por-tion of the profits made by such trader in his business, shall, by reason only of such receipt, be deemed to be a Partner of, or to be subject to any liabilities incurred by, such trader.

V. No person receiving, by way of annuity or otherwise, a portion of the profits of any business, in consideration of the sale by him of the good will of such business, shall, by reason only of such receipt, be deemed to be a Partner of, or be subject to the liabilities of, the person carrying on such business.

A SERIOUS ACCIDENT, AND ITS CONSEQUENCES A SERIOUS ACCIDENT, AND ITS CONSEQUENCES.
Some time back a gentleman residing at
Wortham, in Norfolk, named Balls, on returning from Harleston Market, fell from his horse,
and sustained so serious an illness in consequence, that all his hair came off. He was
perfectly bald. His friend, the Rev. Mr.
Danuel, offered him a wig as a temporary substitute: and in the meantimp he tried very stitute; and in the meantime he tried very ortunately the effects of Rowlands' Macassa Oil. What was the consequence? Part of a bottle produced the re-growth of a thick and luxuriant head of hair, with (what the first original growth had not) a beautiful tendency to curl. This is a very striking instance of efficacy from the fact of the debility which preceded the restoration—Bell's Weekly Messenger. What was the consequence? Part of

EXTRAORDINARY CURE OF A COUGH The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturic and land agent, residing at Edmonton, Middleex:

dlesex:— "Nightingale Hall, Edmonton, And "Dear Sir,—I have recently softered much from a most violent cough, proceedin, from a thekling in my chest, which no remedy, out of many) resorted to, could allay. My heak was constantly aching, and my whole frame entirely shake: Having seen the good effects of your Balsam of Anisced in several members of my family, I pur chased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My ough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured u der a most distressing cough, and who had resoued to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incanable cough, was perfectly oured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its effeacy.

Dyspepsin, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

Dn. Aver. I have used your Fills with extraordinary success in my family and among those I are called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very test remedy I have ever known, and I can condicantly recommend them to my friends.

Warsaw, Wyoming Co., N. Y., Oct. 24, 1855.

Dear Sir: I am using your Cathartic Fills in my practice, and find them an excellent purgative to cleanse the system and purify the foundains of the blood.

JOHN G. MEACHAM, M. D. Constipution, Costirunces, Suppression,

From Mrs. E. Stuart, Physician and Midwife, Boston. Bioston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expet worms. They are so much the best physic we have that I recommend no other to my patients.
